- Raw oat imports are up 7.85% YTD (Jun-Aug) as Canadian oat harvest was earlier than normal this year. The current pace is likely to slow in the coming months with full 2020/21 imports expected to come in slightly higher.
- US raw oat exports are up 9% YTD.
- Oat product imports are up a huge 20.2% YTD as demand for oat related foods has increased sharply during COVID as consumers are eating more at home. The pace moving forward will be tied to solutions to COVID and or quarantine restrictions.
- US oat product exports are up 38%, again gains tied to COVID issues.
